SELF-CARE SEMINARS AND WORKSHOPS

Retretas, seminars, workshops and accompaniment to companies and organizations for the development of well-being policies. Workshops on connection with water, air, earth, fire, conscious nutrition, harmonization of energy centers, sweat lodge, hip closures.

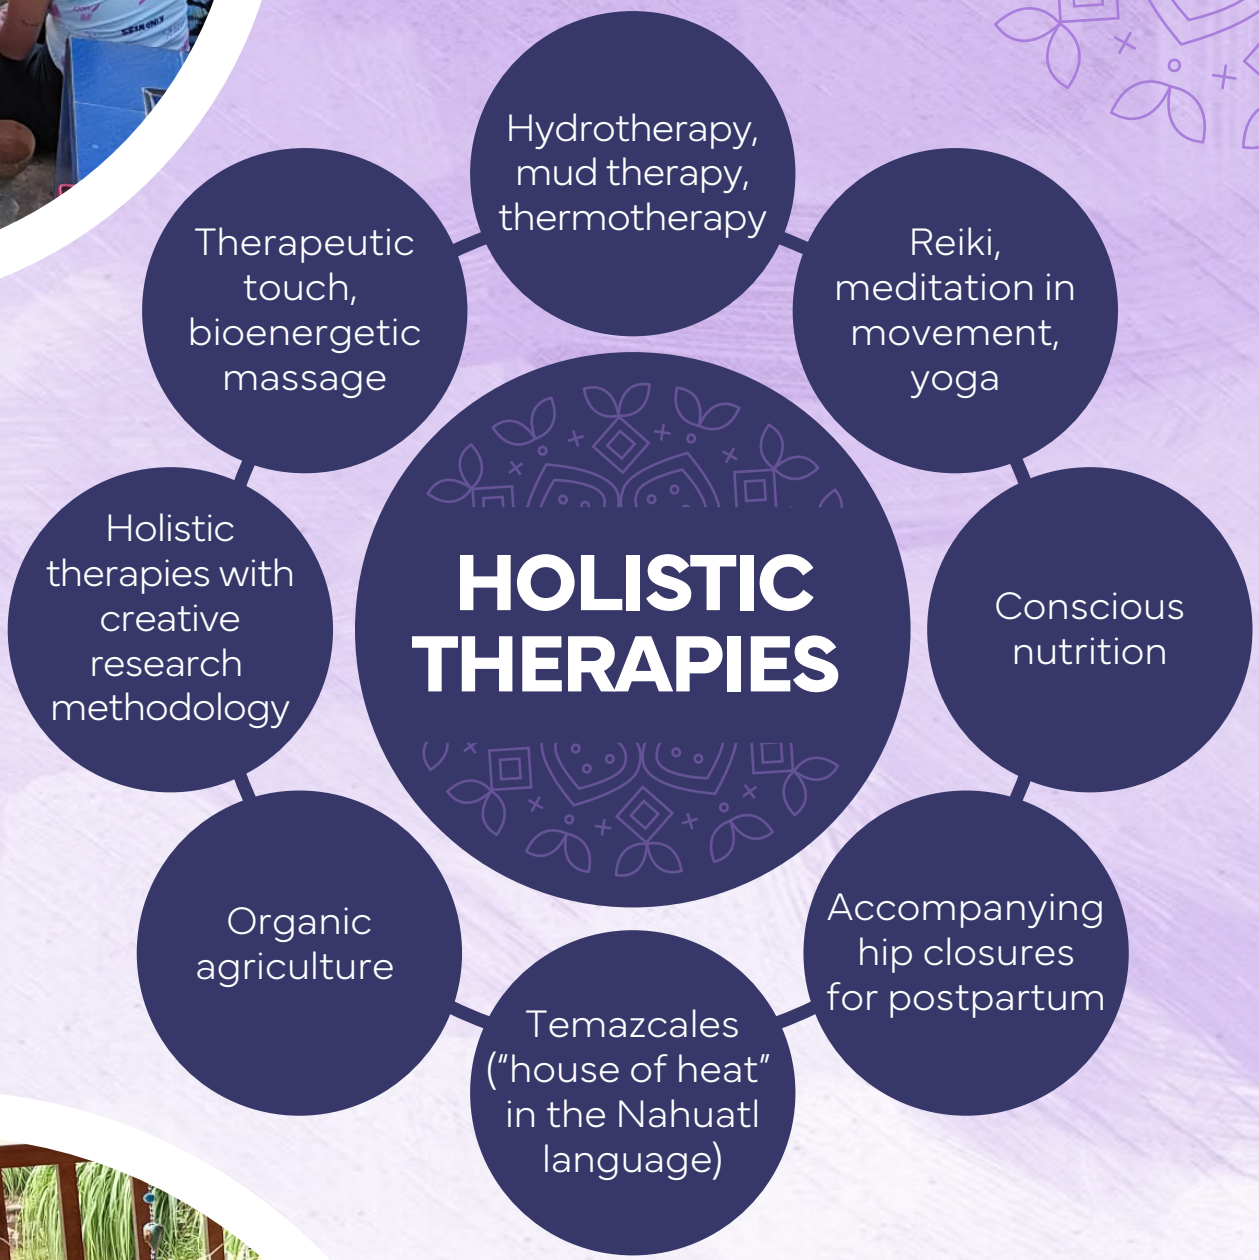

SPACES OF WELL-BEING

In our spaces we offer learning trips created to live healing experiences. We have spaces such as the maloka (indigenous meeting house), the labyrinth, the humid zone, the sweat house, the stone of purposes, the kitchen of knowledge and flavors, the nabusimake trail. Using the example of these spaces, we take our knowledge to other territories to create spaces of well-being in places such as companies, homes, community centers, parks, etc.
